4/9/71

Dear Jim,

The enclosed letter to PH is self-explanatory. Several additions. First, I can't emphasize too strongly the irresponsibility of the CTIA people. It was always bad and now is much worse. Please take my word for it, for I've no time for explanations.

I hope your personal situation has improved. And that it can give you a bit of mobility. If it does, and if I can't get out there, which now seems likely, unless I can get a paid speaking engagement, there may be two things I will want to ask of you, one in Portland and one, if you can get there, in Seattle. Both will be delicate and each would probably have a better ahcne of success if you have an establishmentarian appearance, which you may ind uncongenial.

Any suggestions or comment on the enclosed solicited and welcome. Also any notes for the future.

Best,
